

CABINET SYSTEMS

BATTERY CHARGING CLOTHING LOCKERS

LISTA clothes lockers with power outlets are perfect for the personal storage of battery-powered devices of all kinds, whether in industry, trade, offices, schools, universities or public buildings. Batteries can be charged during storage thanks to the built-in sockets and are therefore always ready to use.

Clothes lockers: The clothes lockers are equipped with the following for each compartment: Single-leaf solid sheet door, flush-fitting, smooth surface (1 compartment lockable), 1 hat shelf, 1 clothes rack with 3 sliding coat hooks, 1 towel holder, 2 x 230 V sockets.

Battery charging cabinet		Art-Nr.: 98.162.010	
Width mm	600	Type	GB (Type BS 1363)

Height mm	1800	Hinge pins mounted	single-leaf solid sheet doors, 1 lockable compartment / 1 lock for 1 compartment
Clear height mm	1280 / 300 (hat rack)	Door specification	plain
Locking system	KEY Lock (Cylinder lock)	Substructure	with substructure, 100 mm
Number of compartments	2	Top	flat
Compartment width	300	Colour	Light blue RAL 5012

Product-specific benefits

- Maximum stability** thanks to hinged doors mounted on the right in fulcrum pins with reinforcement pocket for greater protection against burglary (DIN 4547)
- Sophisticated ventilation** with air vents at the top and bottom of the housing
- Optimum hygiene** thanks to plain compartment shelves without raised edge to make it easier to clean the compartments thoroughly
- Practical interior fittings** with hat rack, towel holder and clothes rack with three sliding coat hooks for each compartment
- Secure locking option** with KEY Lock locking system and other locking systems on request
- Flexible range of applications** with charging options for battery-operated electrical machines, BDE devices, notebooks, tablets, smartphones or e-bikes
- Outstanding safety features** CE-compliant

OVERVIEW OF LISTA ACCESS SOLUTIONS

KEY Lock

Proven standard locking system

KEY Lock, our standard locking system with replaceable cylinders.

- **Manual opening/locking** with key
- Simultaneously lockable for multiple, as well as different, products with only one key or separately lockable with several keys
- Key availability guaranteed for years

CODE Lock

The modern solution with number combination

When locking with CODE Lock, the key is replaced by a number combination. A simple four to six-digit code is all that is needed to open the product.

- **Manual opening/locking** with number code
- Lock readout and programming with LISTA Access Software (option)

RFID Lock

Ready for the future: the solution with RFID Badge

In addition to the CODE Lock, the LISTA RFID Lock enables opening and locking via standard radio-frequency identification (RFID). It consists of a transponder in the lock and standard mobile RFID badges/cards/tags.

- **Manual opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Lock readout and programming with LISTA Access Software (option)

AUTO Lock

The ultimate solution: automatic opening and locking

The LISTA AUTO Lock features the same functionality as our RFID Lock, however opening and locking take place automatically. With LISTA Access Software (option), time profiles can also be programmed in the lock or on the user for time-limited access for increased security.

- **Automatic opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Locks automatically after a preset time or at the push of a button
- Lock readout and programming with LISTA Access Software (option)
- Time-limited access programmable via LISTA Access Software (option)
