

DRAWER CABINETS

DRAWER CABINETS TOOLBOX

Toolbox: Combined drawer widths in a single housing or drawer cabinet. 3 compartments with drawers at the top 64E, bottom left 36E and bottom right 18 E. Incl. central lock for all drawers lockable at the same time.

KEY Lock: KEY Lock, our standard locking system with replaceable cylinders. Manual opening/locking with key.

Drawer safety devices, safety catch on right: This is the minimum requirement for mobile drawer cabinets. Single-sided drawer safety device on the right can be released with one hand and prevents accidental opening of the drawer if the cabinet is unlocked.

Drawer cabinet		Art-Nr.: 69.561.522	
Net weight kg	210	Drawers useful width mm	1088

Drawer clear dimensions (W x D) mm	1080 x 450	Colour	Ruby red RAL 3003 / Grey metallic NCS S 6502-B

OVERVIEW OF LISTA ACCESS SOLUTIONS

KEY Lock

Proven standard locking system

KEY Lock, our standard locking system with replaceable cylinders.

- **Manual opening/locking** with key
- Simultaneously lockable for multiple, as well as different, products with only one key or separately lockable with several keys
- Key availability guaranteed for years

CODE Lock

The modern solution with number combination

When locking with CODE Lock, the key is replaced by a number combination. A simple four to six-digit code is all that is needed to open the product.

- **Manual opening/locking** with number code
- Lock readout and programming with LISTA Access Software (option)

RFID Lock

Ready for the future: the solution with RFID Badge

In addition to the CODE Lock, the LISTA RFID Lock enables opening and locking via standard radio-frequency identification (RFID). It consists of a transponder in the lock and standard mobile RFID badges/cards/tags.

- **Manual opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Lock readout and programming with LISTA Access Software (option)

AUTO Lock

The ultimate solution: automatic opening and locking

The LISTA AUTO Lock features the same functionality as our RFID Lock, however opening and locking take place automatically. With LISTA Access Software (option), time profiles can also be programmed in the lock or on the user for time-limited access for increased security.

- **Automatic opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Locks automatically after a preset time or at the push of a button
- Lock readout and programming with LISTA Access Software (option)
- Time-limited access programmable via LISTA Access Software (option)
