

DRAWER STORAGE WALLS

DRAWER STORAGE WALLS

LISTA drawer storage walls are perfect for storing large, heavy separate components or a large number of small items and keeping them clearly organised and protected from dust and dirt. All add-ons, drawers, pull-out shelves and adjustable shelves can be freely combined with one another. This enables a wide variety of different types of installation – even inside trucks and containers. The necessary changes can be made simply by reorganising the separate components. This means that you can adapt your system to new logistics requirements at any time, so that you always have: A Solution to Match Your Needs. With all the benefits of our drawer cabinets.

KEY Lock: KEY Lock, our standard locking system with replaceable cylinders. Manual opening/locking with key.

Basic unit		Art-Nr.: 70.657.000	
Subgroup	Basic and add-on shelf units	Number of drawers	7
Net weight kg	286	Drawer load capacity kg	200

Drawers useful width mm	918	Specifications	1 rear panel, 2 side panels
Drawers useful depth mm	612	Colour	Light grey RAL 7035 / Light blue RAL 5012

Product-specific benefits

- + Maximum stability** through robust, sturdy design with a load-bearing capacity of up to 5.5 t per shelving unit
- + Large storage capacity** with minimum space requirement thanks to shelf heights of up to 8.50 m
- + A wide variety of equipment options** with different pull-outs and shelves
- + Vertical pull-outs for clearer organisation and improved safety at work** as a space-saving and user-friendly solution with direct access to the stored goods from both sides
- + Heavy-duty pull-out shelves** with load capacities of up to 350 kg for especially large and heavy items
- + Maximum ease of use** through swing-out and sliding safety ladders for easy access to the upper shelves and drawers
- + Secure locking option** with a choice of roller shutters, hinged doors or space-saving sliding doors, optionally with viewing windows
- + Easily adaptable to new stored goods** by installing or converting drawers, pull-out shelves and adjustable shelves in 25 mm increments as required
- + General benefits of the LISTA drawer cabinets**

OVERVIEW OF LISTA ACCESS SOLUTIONS

KEY Lock

Proven standard locking system

KEY Lock, our standard locking system with replaceable cylinders.

- **Manual opening/locking** with key
- Simultaneously lockable for multiple, as well as different, products with only one key or separately lockable with several keys
- Key availability guaranteed for years

CODE Lock

The modern solution with number combination

When locking with CODE Lock, the key is replaced by a number combination. A simple four to six-digit code is all that is needed to open the product.

- **Manual opening/locking** with number code
- Lock readout and programming with LISTA Access Software (option)

RFID Lock

Ready for the future: the solution with RFID Badge

In addition to the CODE Lock, the LISTA RFID Lock enables opening and locking via standard radio-frequency identification (RFID). It consists of a transponder in the lock and standard mobile RFID badges/cards/tags.

- **Manual opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Lock readout and programming with LISTA Access Software (option)

AUTO Lock

The ultimate solution: automatic opening and locking

The LISTA AUTO Lock features the same functionality as our RFID Lock, however opening and locking take place automatically. With LISTA Access Software (option), time profiles can also be programmed in the lock or on the user for time-limited access for increased security.

- **Automatic opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Locks automatically after a preset time or at the push of a button
- Lock readout and programming with LISTA Access Software (option)
- Time-limited access programmable via LISTA Access Software (option)
