

NC STORAGE AND TRANSPORT SYSTEMS

NC CABINETS

NC storage and transport systems made by LISTA give you the perfect solution for your tool logistics. Our NC modules not only provide professional storage in inserts specially optimised for your machining and cutting tools, but also a safe method of transporting them. Tools are stored in a space-saving and organised way and are always within reach and ready for use. But that's not all: our NC modules can be individually equipped and can of course be freely combined with the entire LISTA system in order to make the best possible use of the valuable space in your production facility.

Cabinet housing: The housings have double walls with side panels with internal slots to attach pull-out and adjustable shelves, drawers and tool cradles. The adjustment range is subdivided into a 25 mm grid. Specification: sheet steel.

Roller shutter: The integrated plastic roller shutter has a practical recessed grip with a modular V sleeve and 67 mm catch. Specification: roller shutter with plastic slats. Colour: pale grey, RAL 7035.

KEY Lock: KEY Lock, our standard locking system with replaceable cylinders. Manual opening/locking with key.

NC cabinet		Art-Nr.: 15.962.260	
Net weight kg	183	Drawer load capacity kg	200
LISTA units	54 x 27 E	Locking system	KEY Lock
Width mm	1038	Number of holders	40
Depth mm	691	Type	HSK 63 A+C+E / 80 B+D+F
Height mm	1950	Specifications	4 tool cradle, 2 drawers (front heights 100 / 150 mm, load capacity 200 kg), 1 pull-out shelves (200 kg), including single-drawer opening system
Clear height mm	1730	Partitioning schemes	E
Drawers useful width mm	918	Housing load capacity kg	1200
Drawers useful depth mm	459	Colour	Slate grey RAL 7015

Product-specific benefits

- + **Safe, clean and organised storage** in high-quality inserts made from break-proof, impact-proof and oil-resistant ABS material tailored to hold your cutting tools
- + **Optimum space utilisation** because these high-capacity systems are not only space-saving, but the tools are just where you need them – right next to the machine
- + **Customised and easy to assemble** using tool holders with snap fasteners for tool-free insertion and removal
- + **Secure transport** thanks to robust and stable design
- + **Maximum ease of use and ergonomics** since holders can be fitted at an angle and shelves and drawers can be pulled out
- + **General benefits of the LISTA drawer cabinets**

OVERVIEW OF LISTA ACCESS SOLUTIONS

KEY Lock

Proven standard locking system

KEY Lock, our standard locking system with replaceable cylinders.

- **Manual opening/locking** with key
- Simultaneously lockable for multiple, as well as different, products with only one key or separately lockable with several keys
- Key availability guaranteed for years

CODE Lock

The modern solution with number combination

When locking with CODE Lock, the key is replaced by a number combination. A simple four to six-digit code is all that is needed to open the product.

- **Manual opening/locking** with number code
- Lock readout and programming with LISTA Access Software (option)

RFID Lock

Ready for the future: the solution with RFID Badge

In addition to the CODE Lock, the LISTA RFID Lock enables opening and locking via standard radio-frequency identification (RFID). It consists of a transponder in the lock and standard mobile RFID badges/cards/tags.

- **Manual opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Lock readout and programming with LISTA Access Software (option)

AUTO Lock

The ultimate solution: automatic opening and locking

The LISTA AUTO Lock features the same functionality as our RFID Lock, however opening and locking take place automatically. With LISTA Access Software (option), time profiles can also be programmed in the lock or on the user for time-limited access for increased security.

- **Automatic opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Locks automatically after a preset time or at the push of a button
- Lock readout and programming with LISTA Access Software (option)
- Time-limited access programmable via LISTA Access Software (option)
