

WORKBENCHES AND WORKSTATION SYSTEMS

SYSTEM WORKBENCHES

LISTA system workbenches give you a stable and affordable solution for workstations in workshops and production areas. These practical solutions not only impress with their robust design and quality but also offer outstanding value for money.

Multiplex top: It is made of steamed beech veneers glued in multiple layers, is waterproof and has bevelled edges as well as a sanded, oiled and waxed surface. The top is splashproof, dirt-repellent and largely insusceptible to oil and grease.

KEY Lock: KEY Lock, our standard locking system with replaceable cylinders. Manual opening/locking with key.

System workbench			Art-Nr.: 41.769.280	
Net weight kg	95		Drawers useful depth mm	510
Width mm	1250		Number of drawers	5
Depth mm	700		Drawer load capacity kg	30
Height mm	877		Number of shelves	1
Table worktop	Multiplex		Shelf load capacity kg	50
Top thickness mm	40		Number of compartments with doors	1 x 600
Housing width mm	1116		Locking system	KEY Lock
Housing depth mm	600		Height pair of castor supports mm	137
Housing height mm	800		Castor load capacity kg	400
Clear height mm	600		Specifications	1 push handle, 4 castor holders with 2 fixed and 2 swivel castors with brakes (solid rubber Ø 100 mm)
Number of front heights mm	2 x 75 / 1 x 100 / 1 x 150 / 1 x 200		Colour	Light grey RAL 7035 / Orange RAL 2004
Drawers useful width mm	459			

Product-specific benefits

- + Maximum stability** with housing that has a load capacity of up to 1.0 t and strong construction components
- + Clear, space-saving storage** in variable substructures with smooth-running drawers with up to 70 kg load capacity and a wide range of partition materials
- + Secure locking option** with Key Lock locking system for simultaneous protection of all drawers and doors against unauthorised access
- + Full mobility** to different workstations when fitted with rubber castors for mobile use
- + Universal superstructures**

OVERVIEW OF LISTA ACCESS SOLUTIONS

KEY Lock

Proven standard locking system

KEY Lock, our standard locking system with replaceable cylinders.

- **Manual opening/locking** with key
- Simultaneously lockable for multiple, as well as different, products with only one key or separately lockable with several keys
- Key availability guaranteed for years

CODE Lock

The modern solution with number combination

When locking with CODE Lock, the key is replaced by a number combination. A simple four to six-digit code is all that is needed to open the product.

- **Manual opening/locking** with number code
- Lock readout and programming with LISTA Access Software (option)

RFID Lock

Ready for the future: the solution with RFID Badge

In addition to the CODE Lock, the LISTA RFID Lock enables opening and locking via standard radio-frequency identification (RFID). It consists of a transponder in the lock and standard mobile RFID badges/cards/tags.

- **Manual opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Lock readout and programming with LISTA Access Software (option)

AUTO Lock

The ultimate solution: automatic opening and locking

The LISTA AUTO Lock features the same functionality as our RFID Lock, however opening and locking take place automatically. With LISTA Access Software (option), time profiles can also be programmed in the lock or on the user for time-limited access for increased security.

- **Automatic opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Locks automatically after a preset time or at the push of a button
- Lock readout and programming with LISTA Access Software (option)
- Time-limited access programmable via LISTA Access Software (option)
