

DRAWER CABINETS

WORKSHOP ADD-ON MODULES

Bespoke workshop design to suit your line of work. Workshop equipment from LISTA has been tried and tested thousands of times in diverse industries. The modular design and excellent quality ensure that LISTA applications fit perfectly, are durable and robust. Special requirements of the sector are implemented in detail.

Levelling feet: All workshop add-on modules have four levelling feet per module with an adjustment range of 45 – 90 mm. Levelling feet allow adjustment to compensate for uneven floors and for protection against moisture.

KEY Lock: KEY Lock, our standard locking system with replaceable cylinders. Manual opening/locking with key.

Hinged door cabinet		Art-Nr.: 69.946.080

OVERVIEW OF LISTA ACCESS SOLUTIONS

KEY Lock

Proven standard locking system

KEY Lock, our standard locking system with replaceable cylinders.

- **Manual opening/locking** with key
- Simultaneously lockable for multiple, as well as different, products with only one key or separately lockable with several keys
- Key availability guaranteed for years

CODE Lock

The modern solution with number combination

When locking with CODE Lock, the key is replaced by a number combination. A simple four to six-digit code is all that is needed to open the product.

- **Manual opening/locking** with number code
- Lock readout and programming with LISTA Access Software (option)

RFID Lock

Ready for the future: the solution with RFID Badge

In addition to the CODE Lock, the LISTA RFID Lock enables opening and locking via standard radio-frequency identification (RFID). It consists of a transponder in the lock and standard mobile RFID badges/cards/tags.

- **Manual opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Lock readout and programming with LISTA Access Software (option)

AUTO Lock

The ultimate solution: automatic opening and locking

The LISTA AUTO Lock features the same functionality as our RFID Lock, however opening and locking take place automatically. With LISTA Access Software (option), time profiles can also be programmed in the lock or on the user for time-limited access for increased security.

- **Automatic opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Locks automatically after a preset time or at the push of a button
- Lock readout and programming with LISTA Access Software (option)
- Time-limited access programmable via LISTA Access Software (option)
